Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over GB1593738.

'738 teaches an installation for the part-carrying pallets, comprising a support frame for supporting modules for circulation of the pallets, the support frame comprises at least one vertical frame arrangement formed by a rigid structure from standard profile members, with adjustable feet for adjusting horizontality of the upper surfaced portion (Fig.19, 19a, 20 and 32; page 8, lines 105-119).

Regarding Claim 1, the limitation of "formed by rigid mecano-welded structure from standard profile members"; and Regarding Claim 2, the limitation of "profile members of steel of type NIP", it has been held that "[E]ven though product-by-process claims are limited by and defined by the process determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." In re Thorpe, 777F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

Regarding Claim 1, the limitation of "boxes having a lower portion provided adjustable feet for adjusting a horizontal positioning of the upper surfaced portion", it is well known in the

art to utilizing a boxes having a lower portion provided adjustable feet for adjusting a horizontal positioning of the upper surfaced portion” and it would have been obvious to one of ordinary skill in the art at the time of the invention was made to utilize such boxes with adjustable feet so as to adjusting a horizontal positioning of the upper surfaced portion. (e.g. GB 2309923)

Regarding Claim 3, ‘783 teaches a lower horizontal profile member(705), an upper horizontal profile member(717), an intermediate member(714) in Fig. 19a

Regarding boxes comprising upper surfaced portion capable of receiving at least one module is obvious to one of the ordinary skill in the art to utilize boxes for carrying workpieces instead of flat pallets which is well known in the art, and It would have been obvious to one of ordinary skill in the art at the time of the invention was made to utilize such boxes for carrying workpieces that are not flat.

Response to Arguments

2. Applicant's arguments filed 1/9/04 have been fully considered but they are not persuasive. See the New Office action.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3726

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
